## Profile

First year Software engineering student with programming experience from school, boot camp and self taught concepts. Aiming to learn more and improve my skills in the software development industry.

## Education

| 01/2025 – present | **United States International University (USIU)** |
| Nairobi, Kenya | *Bachelors Degree of Science in Software Engineering (BSSE)* |

| Nyeri, Kenya | **Mount Kenya Academy** |
| | *Kenya Certificate of Secondary Education (KCSE)* |

## Certificates

**Young Developer Certificate - Codingal, 2022**
Enrolled in a Bootcamp in May of 2022 for coding.

**Coding Star Certificate - Codingal, 2022**
For ranking top in coding and Technology.

## Skills

| Python | ●●○○○ | Django | ●●○○○ |
| Javascript | ●●○○○ | React JS | ●○○○○ |
| HTML | ●●○○○ | CSS | ●●○○○ |
| REST API development | ●●○○○ | Postgresql | ●○○○○ |

## Projects

| 12/2024 – 02/2025 | **Nyumbani Rental Management System** |
| | *Rental Management System for landlords* |
| | Tested my full-stack web development skills by developing a website to manage rent for landlords and tenants. Used Django framework for the backend with postgresql database and used React JS for the frontend designing the system on my own. Integrated payments,User management,statistical reports and generated reciepts via API's. |
